OPINION QUESTIONNAIRE

Professor Hu Fu and Professor Chu Yun-han, in conjunction with other faculty members of the political science department at National Taiwan University, are conducting academic research in order to understand mass electoral participation in Taiwan. Below are some questions for you to consider. There may be a few questions that you have often thought of or considered interesting along with some questions concerning the most recent national elections. Please give careful consideration to each question before you answer. Every answer is representative of a certain type of view, no answer is right or wrong, good or bad, but you must be very honest in order to lead to credible research results. Afterwards, we will analyze the information and the results of this survey in its entirety. Since we are not doing individual level analysis, there is no need to write your name. You have been randomly selected by us to participate in this questionnaire. Your assistance and cooperation is extremely crucial to our research; therefore, without your answers, we are basically unable to conduct our research. Your authentic answers will not only make our research a success, but also elevate the research standards of the domestic academic field. Please first accept our sincere thank you and we wish you and your family luck in all your endeavors.
