

1981-1982 Manpower Utilization Quasi-longitudinal Data

User Guide

- I. The Center for Survey Research (CSR), Research Center for Humanities and Social Sciences Academia Sinica reorganizes the data and releases files which include SPSS dataset, STATA dataset, SAS dataset, code book, and user guide.

II. Released File Description

1. User guide

userguide81_82.doc	Including released file description, guideline for data validation and usage, guideline for citation and contact us etc.
--------------------	--

2. Datasets

mergemp81_82.sav	SPSS dataset
mergemp81_82.dta	STATA dataset
mergemp81_82.sas7bdat	SAS dataset

3. Code book

code81_82.doc	Code book
---------------	-----------

III. Guideline for data validation and usage

- (1) Skip, N/A or missing values in the dataset for the original Manpower Utilization Survey are shown as “.”.
- (2) Concerning released file description, the number shown in the file name refers to the last two digits of the year (A.D.). (e.g., 81=1981)
- (3) The column widths of variable label and value description in the STATA are limited to 80 and 40 bytes, respectively, so the STATA dataset shows only the first 80 bytes as variable label, and the first 40 bytes as value description. In case of cut-off contexts, please refer to code book.
- (4) CSR has checked wild codes and out-of-range values to validate and clean data. There was no abnormality found.
- (5) Please be attentive if “system missing” may not be listed in the variable value because of the design of skip question (N/A), missing/no response and so on.
