

Manpower Utilization Quasi-longitudinal Data : 1995-1996

User Guide

- I. The Center for Survey Research (CSR), Research Center for Humanities and Social Sciences Academia Sinica reorganizes the data and releases files which include SPSS dataset, STATA dataset, SAS dataset, code book, and user guide.

II. Released File Description

1. User guide

userguide95_96.doc	including released file description, guideline for data validation and usage, guideline for citation and contact us etc.
--------------------	--

2. Datasets

mergemp95_96.sas7dat	SAS dataset
mergemp95_96.sav	SPSS dataset
mergemp95_96.dta	STATA dataset

3. Code book

code95_96.doc	Code book
---------------	-----------

III. Guideline for data validation and usage

- (1) In case of any inconsistency in value description between project report and dataset, priority is given to findings in dataset (and codebook) after confirming with the DGBAS.
- (2) Skip, N/A/ or missing values in the dataset for the original Manpower Utilization Survey are shown as “.”.
- (3) Concerning released file description, the number shown in the file name refers to the last two digits of the year (A.D.). (e.g., 96=1996)
- (4) The column widths of variable label and value description in the STATA are limited to 80 and 40 bytes, respectively, so the STATA dataset shows only the first 80 bytes as variable label, and the first 40 bytes as value description. In case of cut-off contexts, please see codebook.
- (5) CSR has checked wild codes and out-of-range values to validate and clean data. Our findings are shown as follows:

Survey Year	Question No.	Valuable Name	Wild Codes and Out-of-range Values	Frequency
-------------	--------------	---------------	------------------------------------	-----------

1995	27	pindu_1	34	1
1995	40	b40_a5_1	23	1

(8) Please be attentive if “system missing” may not be listed in the variable value because of the design of skip question (N/A), missing/no response and so on.

IV. Guideline for citation

Citation, based upon the requirement of various journals, theses or dissertations, can be revised.
