Taiwan Youth Project: J3W6S (TYP - Taiwan Youth Project)

Taiwan Youth Project: J3W6S

Overview	
Type	台灣青少年成長歷程研究(Taiwan Youth Project)
Identification	C00238!1en
Version	Production Date: 2017-04-11
Abstract <p>Taiwan Youth Project (TYP) aims to study youth's life experiences and development process from a life course perspective. By examining the interplay among three dominant institutions: family, school, and community, TYP focuses on exploring the youth's different growth trajectories and developmental patterns responding to diverse social contexts from adolescence to young adulthood. Youth's life experience is generally accumulated from family, school, and community, and the effects of the interplay among these social institutions are reflected in youth's process of socialization.</p> <p>The project was started in the spring of 2000, with junior high students from Taipei County, Taipei City, and Yi-Lan County's as the study population. In order to examine the effects of Taiwan's educational reforms on the students, TYP takes two cohorts as the study subjects: the 1st year junior high students with an average age of 13 (those taking reformed high school entrance system) and the 3rd year junior high students with an average age of 15 (those taking old high school entrance system). This survey is J3W6S. A total of 1,847 were completed.</p>	
Kind of Data	抽樣調查資料 (Sample survey data)

Scope & Coverage	
Time Period(s)	2004
Countries	Taiwan, ROC
Geographic Coverage Taipei city, Taipei county and Yi-Lan county	
Universe In 2000, students are 9th grade in the Taipei city, Taipei county and Yi-Lan county.	

Producers & Sponsors	
Primary Investigator(s)	Chin-chun Yi, Institute of Sociology, Academia Sinica
Other Producer(s)	Institute of Sociology, Academia Sinica
Funding Agency/ies	Institute of Sociology, Academia Sinica

Data Collection	
Data Collection Dates	start 2004-10-25 end 2004-11-25
Time Period(s)	start 2004-09-01 end 2005-06-30
Data Collection Mode	留卷自填

Data Processing & Appraisal

Data Editing

The Center for Survey Research (CSR), Research Center for Humanities and Social Sciences Academia Sinica, has checked wild codes and out-of-range values, to validate and clean data.
