

Youth Health Behavior Survey

(For Student)

Dear students:

Hello!

Thank you for spending time participating in our research and providing us your valuable opinions. This questionnaire aims to study the behaviors and ideas of your generation. Your answers will be our most precious resources; therefore, please answer the following questions as accurately and honestly as possible.

In the process of data analysis, we focus on the overall patterns rather than every single note. Besides, we will never reveal any of your personal details and information about your family to anyone, and we will not cause you any inconveniences. The acquired information will help us build a detailed picture about young generation, which will be used as a reference for an ideal education policy.

Thank you again!

Best wishes,
The Research Team of Taiwan Youth Project
