**III. Guideline for data validation and usage**

1. The Center for Survey Research (CSR), Research Center for Humanities and Social Sciences Academia Sinica, has checked wild codes and out-of-range values, to validate and clean data. There is no doubt about data accuracy after the validation.

## 2. Note for data usage

- (1) Please be attentive if “system missing” may not be listed in the variable value because of the design of skip question (N/A), missing /no response and so on.
- (2) The column widths of variable label and value description in the SPSS are limited. In case of cut-off contexts, please see questionnaire.
- (3) The Telephone Interview data are weighted by raking method along with population distribution of sex, age, education, and area. The population parameters are referred to “2023 Demographic Fact Book, Republic of China”, published by Ministry of The Interior Republic of China.

## IV. Guideline for citation

Citation, based upon the requirement of various journals, theses or dissertations, can be revised.
