III. Guideline for data validation and usage

1. The Center for Survey Research (CSR), Research Center for Humanities and Social Sciences Academia Sinica, has checked wild codes and out-of-range values, to validate and clean data. There is no doubt about data accuracy after the validation.

2. Note for data usage

- (1) Please be attentive if “system missing” may not be listed in the variable value

because of the design of skip question (N/A), missing /no response and so on.

(2) The column widths of variable label and value description in the SPSS are limited. In case of cut-off contexts, please see questionnaire.

IV. Guideline for citation

Citation, based upon the requirement of various journals, theses or dissertations, can be revised.
