

# Taiwan's Election and Democratization Study, 2012-2016 (IV): Telephone Interview and Internet Survey of the Presidential Satisfaction--The Fifteenth Wave (TEDS2016\_PA03)

## User Guide

### I. Overview

|                        |                                                     |
|------------------------|-----------------------------------------------------|
| Principal Investigator | Chi Huang                                           |
| Execution Institution  | Election Study Center, National Chengchi University |
| Funding Agency         | Ministry of Science and Technology                  |
| Span of Project        | 2015-08-01~2016-07-31                               |
| Execution              |                                                     |
| Span of Investigation  | 2016-03-24~2016-03-28                               |

### II. Released File Description

#### 1. User guide

|               |                                                                                                                          |
|---------------|--------------------------------------------------------------------------------------------------------------------------|
| userguide.doc | including released file description, guideline for data validation and usage, guideline for citation and contact us etc. |
|---------------|--------------------------------------------------------------------------------------------------------------------------|

#### 2. Questionnaire

|                           |                                   |
|---------------------------|-----------------------------------|
| TEDS2016-I_PA03_QuenE.pdf | Internet Survey Questionnaire     |
| TEDS2016-T_PA03_QuenE.pdf | Telephone Interview Questionnaire |

#### 3. Datasets

|                      |                                             |
|----------------------|---------------------------------------------|
| TEDS2016-I_PA03E.csv | Comma delimited file of Internet Survey     |
| TEDS2016-I_PA03E.sav | SPSS dataset of Internet Survey             |
| TEDS2016-I_PA03E.dta | STATA dataset of Internet Survey            |
| TEDS2016-T_PA03E.csv | Comma delimited file of Telephone Interview |
| TEDS2016-T_PA03E.sav | SPSS dataset of Telephone Interview         |
| TEDS2016-T_PA03E.dta | STATA dataset of Telephone Interview        |

#### 4. Program

|                      |                                         |
|----------------------|-----------------------------------------|
| TEDS2016-T_PA03E.sps | SPSS Syntax file of Telephone Interview |
|----------------------|-----------------------------------------|

#### 5. Codebook

|              |                      |
|--------------|----------------------|
| codebook.pdf | Codebook description |
|--------------|----------------------|

### **III. Guideline for data validation and usage**

1. CSR has checked wild codes and out-of-range values, to validate and clean data. There is no doubt about data accuracy after the validation.
2. The column widths of variable label and value description in the STATA are limited to 80 and 40 bytes, respectively, so the STATA dataset shows only the first 80 bytes as variable label, and the first 40 bytes as value description. In case of cut-off contexts, please see questionnaire (or code book)
3. Due to the "personal information protection act", we modified the survey data to avoid any possible disclosure of information regarding household and residence of interviewees. Specifically, we created a new variable "household\_live" to replace the relevant information in the original dataset. The new variable contains no information about household and residence of interviewees and will only serve as a reference variable for researchers.
4. Weighting:  
The Telephone Interview data are weighted by raking method along with population distribution of sex, age, education, and area. The population parameters are referred to "2014 Demographic Fact Book, Republic of China", published by Ministry of The Interior Republic of China. Internet survey data are not weighted to avoid bias because the dataset is relatively small.

### **IV. Guideline for citation**

Citation, based upon the requirement of various journals, theses or dissertations, can be revised.
